

HILL ROUTE
SCHOOL OF EXCELLENCE

HILL ROUTE SCHOOL OF EXCELLENCE

"School comes from the Greek word of leisure-leisure in which to learn, a place where students and teachers can flower, a place where a future generation can be prepared, because schools are meant for that, not just merely to turn out human beings as mechanical, technological instruments; but also flower as human beings, without fear, without confusion, with great integrity."

"J. Krishnamurti"

"Learning gives creativity, creativity leads to thinking, thinking provides knowledge, and knowledge makes you great."

"A.P.J. Abdul Kalam"

SCHOOL OF EXCELLENCE

MISSION STATEMENT

HILL ROUTE SCHOOL OF EXCELLENCE is committed to the cause of quality education where faculty, staff and administration, in partnership with the parents, students and community are committed to providing a safe and disciplined learning environment that promotes the academic, intellectual, personal and social development of our children. We aim to develop our children into capable, responsible, caring and ethical world citizens.

HILL ROUTE
SCHOOL OF EXCELLENCE

OUR VISION

Our vision is to provide a happy, caring, experimental and stimulating learning environment where children will recognize and achieve their fullest potential so that they can make their best contribution to the society.

- * A set of moral values- Honesty, Integrity and Good Judgement.
- * A complement of basic skills- Linguistic, Mathematical, Scientific, Artistic, Physical and Social.
- * An inquisitive and discrimination mind and a desire for knowledge.
- * Strong self-esteem and high personal expectation.
- * Tolerance and respect for others.

We value the partnership that exists between the school, parents, the community and the part each plays in realizing this vision.

OUR CORE VALUES

HONESTY

INTEGRITY

QUALITY

ACCOUNTABILITY

**SOCIAL
RESPONSIBILITY**

THE SCHOOL PHILOSOPHY

HILL ROUTE SCHOOL OF EXCELLENCE aims primarily at the education of young children without distinction of caste and creed through the play way and other modern methods of imparting education, in order to eradicate from their minds the fear of going to school or sitting for examinations.

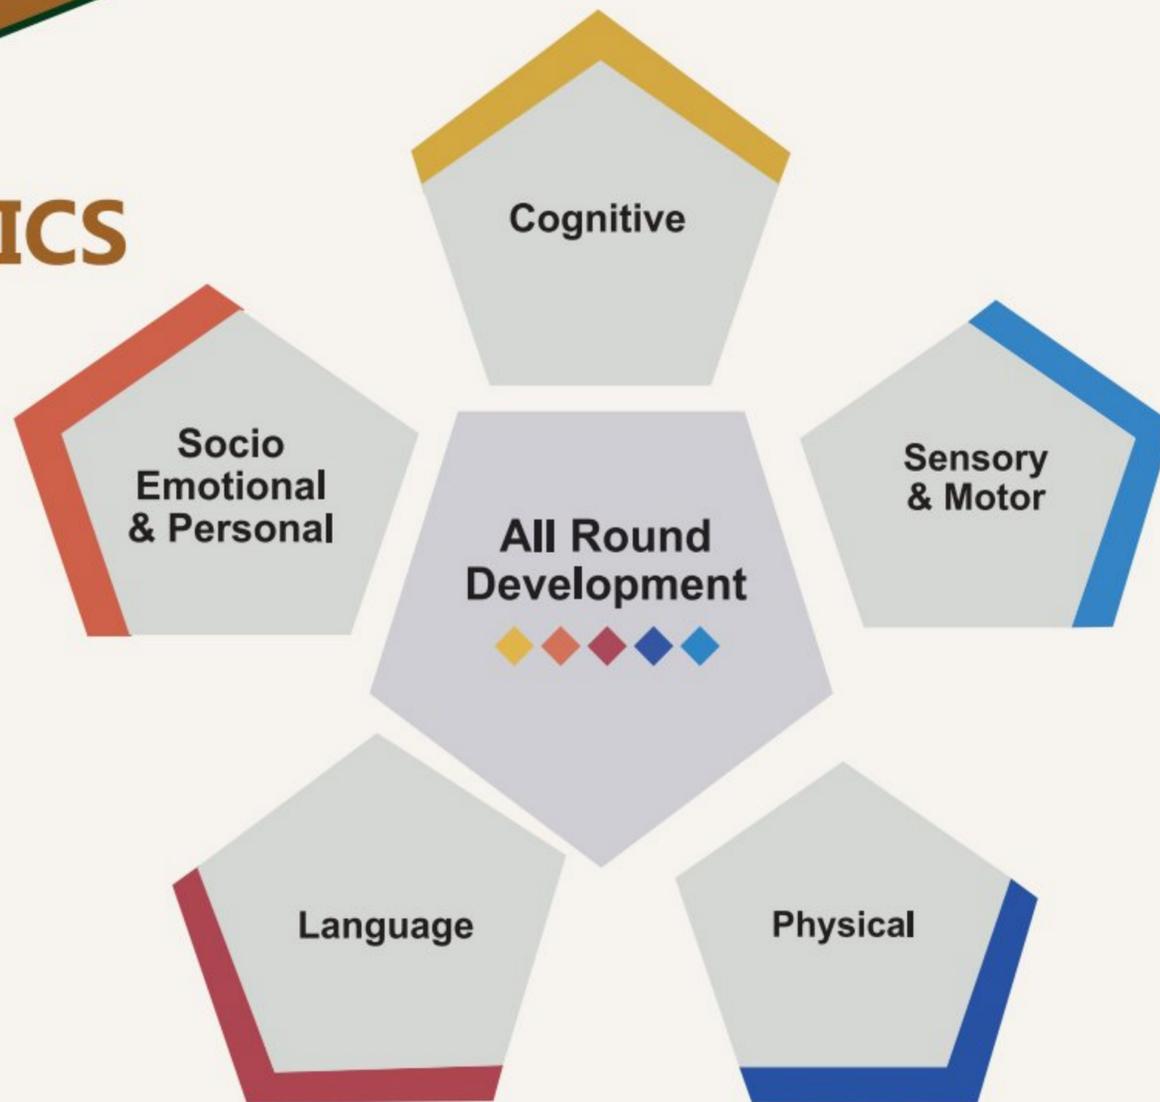

The course of studies is international in its scope and ambit, and includes varied subjects like English, Mathematics, Social Studies (History, Geography, Civics), Science (Physics, Chemistry, Biology), Environmental Studies, Information Technology, Languages (Hindi, Sanskrit, Urdu, Foreign Language), Economics, Business Studies, Accountancy, Political Science, Psychology, Home Science, Value Education, General Knowledge, Art Craft, Music & Dance, Physical Education etc.

The School is run by a registered, educational society consisting of committed educationists and social worker of long standing and high repute. There is a general atmosphere of involvement, dedication and solicitude in all spheres. The school philosophy encourages the students to become global citizens.

The highly qualified and trained staff not only implement the curriculum but also generate an enthusiasm for learning and a questioning critical disposition.

ACADEMICS

COGNITIVE DEVELOPMENT

HILL ROUTE SCHOOL OF EXCELLENCE has a broad based curriculum which anticipates the increasing range of opportunities for the bright future of the children. We nurture children to become responsible adults and outstanding leaders who will make useful contributions to the society.

PHYSICAL DEVELOPMENT

A little physical activity on a regular basis helps improve immunity and builds agility and flexibility in the body. Moreover, as you know, a healthy mind stays in a healthy body. If the physical health remains in good condition, the level of concentration, confidence, and determination also go up naturally. This, in turn, helps the children to perform better in various spheres of life.

SOCIAL DEVELOPMENT

Children having the ability to interact readily with people are said to have better social skills than those who shy away from unknown faces. The more one feels comfortable in unfamiliar ambiance, the better are his/her chances to grow into a confident individual, capable of coping up well in any work environment. Hence, developing social skills at an early age can lay a strong foundation for a better future ahead.

COMMUNICATION

Whether a child aspires to become a teacher or a manager or an administrator or a leader, strong communication abilities is a criterion that helps to keep one ahead in every run of life. Hence, mastering the art to communicate effectively becomes a bare essential when it comes to the all-round development of children.

FOCUS ON DEVELOPING 21ST CENTURY LIFE SKILLS

The school recognizes that in a world where change is the only constant, students need to be equipped with a set of skills that are relevant and central to the holistic development of learners. Hence the school curriculum is designed to develop the social, personal, intellectual, emotional and physical growth of children.

21st century skills are aimed at guiding and preparing learners for life and its possibilities, including equipping learners with a meaningful and successful living in a rapidly changing and transforming society. These skills include-

LEARNING SKILLS

- Critical Thinking
- Creative Thinking
- Collaborating
- Communicating

LITERACY SKILLS

- Information Literacy
- Media Literacy
- Technological Literacy

LIFE SKILLS

- Flexibility
- Initiative

SOCIAL SKILLS

- Productivity
- Leadership

Why Experiential Learning ?

CHILDREN LEARN BEST BY DOING

This hands-on approach enables them to grapple with a problem, issue or concept using all their senses. The learning experience thus becomes multi-dimensional and an internal, cognitive, sensory and emotional process. This engagement leads the children to the second stage.

CHILDREN EXAMINE THEIR LEARNING

The second step sees children examine their learning critically and creatively. Through sustained inquiry, they are able to probe further into the problem, concept or task at hand. This takes the child onto the third stage.

THE QUESTIONS THAT ASSAIL A CHILD'S MIND

After having experienced and reflected upon a problem, the mind seeks answers via the dialogic approach. Dialogue helps the child to see the bigger picture, think outside the box, and engage collaboratively with others. It helps to focus individual and interpersonal learning outcomes.

THE CHILD ARRIVES AT DESTINATION

After having meaningful experiences, followed by reflection and dialogue, the child arrives at destination, a richer and more fulfilled being. This helps the child to think and act independently. This manifests itself not only in terms of grades or marks but also real and meaningful understanding.

OUR METHODOLOGIES

CIC (Consumer Innovator Creator) Methodology and Design Thinking Approach serve as the foundation framework of all our STEMROBO programs and curriculums.

The proprietary CIC Methodology is meticulously designed to guide students through a progressive journey, commencing as consumers and advancing into innovators and ultimately creators. This Activity-based Learning (ABL) assist students in ideation and growth as innovators, encouraging them to think outside the box. Ultimately, students transform into creators, gaining the capability to innovate and drive change in the world by addressing real-life problems through Project-based Learning (PBL).

AUDITORIUM

A centrally airconditioned new auditorium equipped with state of art infrastructure has been constructed in the school campus which has a seating capacity of approximately 600 people and a digital sound system. This long-awaited facility has provided the students a platform to explore and nurture their hidden talents and communication skills. Its multipurpose usage for Annual Functions, Parent Orientations, Workshops, inter and intra-school competitions and many other co-curricular activities are organised here to develop creativity and inculcate community feeling amongst students.

LIBRARY

"Books are a man's best friend". The School has a well stocked Library with more than 8000 books and every year the school adds more books. A variety of newspapers and magazines are also subscribed to make students updated with the various fields and current affairs. (separate library for primary , middle and secondary school students)

CARE ROOM (Infirmary)

The school premise is one that any child can rely on. With medical practitioners well equipped to tend to any medical requirement and first aid, every student is always taken care of.

MEALS & MESS

'Back to School' means 'Back to School for nutritious and healthy meal' for our students for a better and healthy growth.

At HILL ROUTE SCHOOL OF EXCELLENCE we provide meals that not just delicious but also nutritious. With our Diet chart specially curated by Nutritionists we ensure that our Students get all the macro and micro nutrients for an overall development of body and mind.

Our Chefs, dieticians, and nutritionists meticulously plan and prepare meals with the finest seasonal ingredients to ensure you enjoy meals that are both delicious and healthy.
